Fiber content: 100% polyester

FR class: IFR - Inherently Flame Retardant

FR test: CAFM Reg # F-02301 - Canada ULC-S109 - NFPA
701-2019, TM#1

Durable Budget Velour

Medium weight Eco-Poly Velour is an economical synthetic fabric ideal for budget stage curtains for schools and theaters of all kind. Knitted from 100% polyester yarns, this curtain material is inherently flame retardant which eliminates the tedious and costly process of re-flameproofing. With a soft plush hand, Eco-Poly Velour is wrinkle and tear resistant and it features a light absorbing brushed finish that provides fair opacity. Some common applications are portable curtains, room dividing curtains, theater curtains, auditorium drapery, and church stage curtains among other uses.

Lightfastness: Between 40 and 80 hours.

Eco-Poly Velour meets the minimum requirements of flame resistance established by these tests:

- NFPA 701-2019, Test Method 1
- Canada ULC-S109

For extra savings on projects that require a light weight fabric, check out our [Eco-Poly Velour 15oz IFR](#).
