Weight per linear yard: See weight chart

Weight per square yard: See weight chart

Fiber content: 100% cotton

FR class: NFR - Non Flame Retardant

FR test: None. Warning: This material is flammable!

Black Muslin Non-Flame Retardant

Medium-weight and heavy-weight Non-Fire Retardant Muslin -aka NFR Muslin- is an affordable fabric used for a variety of theater and film production applications. Narrow widths are used for small drops or to cover soft or hard masking flats, while the extra-wide fabric is used to make seamless backdrops, cycloramas or space surrounds.

NOTE: Since NFR Muslin is not pre-washed its width may vary a few inches. When estimating fabric yardage to cover flats, allow at least 6 inches of extra material on all sides. The excess can be trimmed after sizing the flat. Heavy-weight Black Muslin will typically have a longer lifespan than the medium-weight alternative.

Cut yardage fabric may be folded to ship via UPS. Full rolls ship via LTL freight. Purchase multiple rolls to reduce freight charges.

Color charts are intended as a reference only. Fabric colors can vary from their web representation due to standard dye-lot variations and computer screen settings. Cut or special order fabrics cannot be returned. You may wish to order a sample to review material texture and color before ordering.
